

Snowline Joint Unified School District Walking Field Trip Consent Form

Student Name _____

Teacher _____

From time to time classes take walking trips as part of the school program. Walking trips are taken to enrich the school program, to provide concrete examples, and to facilitate learning. It is our desire that parents be informed when children are taken on such trips. We feel there should be parental approval for such activities.

To minimize paperwork both for parent and teacher, we are asking that parental consent be given via this letter for all trips which your child may take this year with the class during regular school days.

The teacher will usually send home a notice of each trip to be taken, but it will not be necessary for the parent to respond each time. If you do not wish your child to participate in a particular trip, you should contact the school when you receive notice of the trip.

I give my consent for _____
to participate in the walking trips to be taken by the class this year.

Signature of Parent or Guardian
